Purpose and Introduction

Rochester Regional Health recognizes the need in our community to provide financial counsel and assistance to those patients with limited income who find it difficult to meet the expenses incurred in receiving health care services at Rochester Regional Health. In keeping with our mission and values to enhance lives and preserve the health of our community and patients by enabling access to a comprehensive, fully integrated network of the highest quality and most affordable care, delivered with kindness, integrity, and respect, Rochester Regional Health offers a Financial Assistance Program.

The purpose of this policy is to define the Financial Assistance Program and establish the necessary criteria, guidelines and approval process for the provision of Financial Assistance to eligible individuals, as well as to offer assistance with obtaining low cost or free health insurance, to help defray the costs of health care services provided by Rochester Regional Health.

Overview/Public Disclosure Statement

Rochester Regional Health's Financial Assistance Program takes into account each individual patient's ability to contribute to the cost of his or her healthcare services. The Financial Assistance Program consists of a process where patients are provided financial counseling and assistance in applying for publicly sponsored New York State health insurance programs and/or are evaluated for possible eligibility for a Financial Assistance Discount.

Discounts for all Patients

Rochester Regional extends financial assistance to patients by applying a discount to medically necessary services provided at the hospital and their outpatient locations. Exclusions include non-medically necessary elective services: cosmetic surgery, school/sport/work physicals, in-vitro fertilization, cardiac rehab, and pulmonary rehab.

Financial Counseling Services

As part of the Financial Assistance Program, Rochester Regional Health will provide patients with information about the criteria that must be met under Federal and NYS regulations in order to obtain Medicaid, Medicare, entitlement programs and/or other health insurances. Patients are assisted in making applications for any of these programs or discounted fee plans.

Patients may remain self-pay and become responsible for full payment of their Hospital bill, if they:

- Elect not to make application for insurance coverage for which they may qualify; or
- Elect not to make application for Financial Assistance;
- Do not comply with insurance company requirements
- Have the ability to pay.
